Jake from Leavitt handed out a packet he stated that it was for them to review the 1st page is how they are going to conduct their business and procedures with everything going on. Jake stated what they are seeing is a Montana State Fund proposal. He explained what they did was take everything from MACO and transferred it over and this is the quote which everything is the same class codes, payroll etc. Travis explained just like with MACO the Montana State Fund is an auditable policy they still report the payroll, payroll may change just a premium indication they took the payroll from the 18-19 year. Jake stated that the standard

premium amount is \$148,807.00 and the total estimated premium and assessments is \$146,868.00 so with that we are looking at \$56,500.00 in savings with Montana State Fund. Travis stated that they reached out to others but Montana State Fund was the only to step up and give good premium.

Commissioner DesRosier stated that the mod factor is what changes, Travis stated yes the one you see now is calculated at a 1.23 that means you are paying \$0.23 more on the dollar. He also stated that their goal is to drive the mod factor down want to be at a 1.0 or less. Discussion back and forth on how to bring the mod factor down and also some of the different amounts on the proposal. Jake stated that this is just an estimate so the number are going to change a bit. Mandi Bird Kennerly asked when a decision will need to be made, they replied around the June 1, 2020. K. Discussion: Addition to Agenda Purchase Order System

Commissioner DesRosier stated that this is an item that they have had discussion on for a number of years and have purchased the software to help the county create a system for purchasing. He explained that it will help the county track and monitor expenditures.

Commissioner McKay stated that Blackmountain told him over a year ago that the county has already purchased the program and now it just needs to be implemented, he also stated that he thought now would be a good time with everything slowing down. He believes that it would get some pressure off of the Treasurer and Clerk & Recorder and that it would be good checks and balances for the county.

Commissioner Overcast stated that on the same line with the purchase orders, he thinks we need work orders also with maintenance so they can make sure things are getting done. Commissioner McKay would like it put on the next agenda for approval.

Commissioner DesRosier stated that they will have to set up with the approval a little bit of education. Mandi Bird Kennerly stated that there is going to have to be a purchase order procedure before we implement. She also stated that she thinks it should be implemented July 1, 2020. Mandi explained that the Department heads would fill out a form to submit for approval when approved they would then enter in the system and print out the purchase order so there is really no training needed. She also stated that it is going to be a daily thing for one of the commissioners to be here for an unexpected cost that comes up. Commissioner McKay stated that they could give the authority to the CFO for the unexpected purchases. Commissioner DesRosier advised Mandi to put in the language that they are looking at July 1, 2020 to implement and it will be open for discussion between now and then any questions they can stop in Clerk & Recorders Office.
